

PUBLIC NOTICE

PUBLIC INFORMATION MEETING

Wednesday, November 13, 2024 | 6 P.M.

**Franco American War Veterans
300 Water Street, Leominster, MA**

United Material Management of Leominster, LLC (UMML) is hosting a Public Information Meeting for its proposed permit modification at its existing transfer station located at 200 Tanzio Road, Leominster, Massachusetts. UMML representatives will present a project overview, benefits, impacts, alternatives, and next steps. There will be opportunities for public comments and questions following the formal presentation.

UMML is a state-of-the-art municipal solid waste (MSW) and construction & demolition (C&D) waste handling and transfer station with an integrated rail line. The facility specializes in the recycling of C&D debris and the transfer of residuals for responsible end disposal. In order to meet the growing demand for waste handling in Massachusetts, UMML is proposing a project, subject to Massachusetts Environmental Policy Act (MEPA) review, that will increase the daily handling capacity at its current facility. The facility will not require any building expansion to accommodate the increased handling capacity. UMML is currently permitted to process up to 1,000 tons of waste per day (TPD). This project would increase that capacity to 1,500 TPD.

REGISTRATION INFORMATION

To register for the meeting, please email comms@win-waste.com.

To join our virtual meeting, go to the following link: winwins.co/UMML1113.

Spanish translation services will be available at the on-site meeting. To request translation services for the virtual meeting, please submit your request to comms@win-waste.com by November 6, 2024.
