

# PUBLIC NOTICE

## PUBLIC INFORMATION MEETING

**Monday, July 22, 2024 | 6:00 P.M.**

**Community Room at the Leominster Public Library  
30 West Street, Leominster, MA**

**United Material Management of Leominster, LLC (UMML)** is hosting a Public Information Meeting for its proposed permit modification at its existing transfer station located at 200 Tanzio Road, Leominster, Massachusetts. UMML representatives will present a project overview, benefits, impacts, alternatives, and next steps. There will be opportunities for public comments and questions following the formal presentation.

**UMML** is a state-of-the-art municipal solid waste (MSW) and construction & demolition (C&D) waste handling and transfer station with an integrated rail line. The facility specializes in the recycling of C&D debris and the transfer of residuals for responsible end disposal. In order to meet the growing demand for waste handling in Massachusetts, UMML is proposing a project, subject to Massachusetts Environmental Policy Act (MEPA) review, that will increase the daily handling capacity at its current facility. The facility will not require any building expansion to accommodate the increased handling capacity. UMML is currently permitted to process up to 1,000 tons of waste per day (TPD). This project would increase that capacity to 1,500 TPD.

### **REGISTRATION INFORMATION**

To register and/or to request language interpretation services for the meeting please email **comms@win-waste.com**. Please allow a two-weeks' notice prior to the meeting to request interpretation services.

### **PROJECT CONTACTS**

#### **Environmental Consultant:**

**Laura Bugay, PE**  
Green Seal Environmental, LLC  
l.bugay@gseenv.com  
(508) 888-6034

#### **Community Involvement Contact:**

**Mary Urban**  
UMML
